7 of 7 review helpful This isn't a book and it isn't pinpoint By Kurt W Bost This isn't a book At best it is a high end glossy brochure of the type you normally get for free when you write to a city's tourism commission It isn't pinpoint You get a rough scale map of the city with a list of historic sites Save your cash With individual guides that cover Civil War sites in specific areas this series uses unique formatting to make the terrain of each region's battles come to life Each guide features a heavy duty paper stock laminated for durability with an area map on the back of the fully opened piece When the piece is folded horizontally in half pinpoint descriptions and photos of key sites fill each accordion folded side
